

Let's capture
that love story!

Fourteen
**Amazing
Engagement
Session Ideas**

www.RedCedar.studio

As Wedding Photographers,

engagement sessions offer us a chance to learn about a couple's love story! We always encourage couples to think of places they like to go together or things they like to do together to help spark some ideas for unique engagement photos that highlight the love they share.

If you are still stumped for ideas, here are a few to get you started!

DOWNTOWN

Hustle and bustle, tall buildings and historic brick backdrops: what a beautiful way to capture some intimate moments for the sophisticated city couple! We can make time stand still and come up with some fun and unique portraits for the two of you.

ROLLER SKATING (or ice skating in the winter) Doing something active together can bring some fun and flirty-ness to your engagement portraits.

MOUNTAIN

If you two have an affinity for the outdoors, mountaintops have a way of bringing together romance and adventure!

BACHELOR BUCKET LIST

This is the guy's chance to bring his bride into his world a little bit and show off his man skills! Fun activities could include a fishing or a boating trip, paintball, nerf gun battle, archery, billiards – the possibilities are endless!

Fall & Winter

PUMPKIN PATCH

Grab your pumpkin spice latte and let's head to the pumpkin patch! The country will provide beautiful scenery for your session.

FALL COLORS

They happen in a flash and display their glory for only a short time. The warm glow of autumn makes the perfect backdrop for photos!

BREWERY or COFFEE HOUSE

Do you two have a neighborhood pub or coffeehouse you frequent together? We love to capture the warmth and ambiance of these places.

SNOW

Walking in a Winter wonderland – need we say more? If we time it right, capturing the love that you two share in the midst of freshly fallen snow can be quite magical indeed!

CHRISTMAS TREE FARM

Another fun seasonal activity! Candid moments on a Christmas tree farm amidst beautiful evergreen branches can create beautiful engagement photos.

Spring & Summer

ORCHARD BLOSSOM

The rows of white and pink blossoms of can lend themselves well as a dreamy and ethereal backdrop for your engagement portraits.

PRAIRIE or WHEAT FIELD

The transition from Spring into Summer boasts a vast array of green fields turning to gold. Contrast that against a beautiful Summer sky and you get some epic sunsets!

VINEYARD

Rows of green grapevines and the beautiful stonework of a winery can create a fresh and lively environment for gorgeous photos!

ICE CREAM PARLOR

A vintage ice cream parlor can provide a fun and bright space for photos with some character.

GARDEN

Many parks sport impressive flower gardens that can add splashes of vibrant color and dreamy effects for your engagement portraits.

Your Venue

Check with your venue about using their property for your engagement session! Often times they will offer it complimentary to the couples who are getting married there as long as it is on a day that they do not have other events booked!
